Swann Suggests Almirall's Investigators Move to the Interborough Offices.

ALDERMEN CATCH FEVER

But Tammany Men Beat Plan for Inquiry Into Day's. Market Accusations.

Due to a serious turn in the illness Gov. Smith's mother the Governor cas unable to confer yesterday with corge Gorgon Battle over the extraormary Grand Jury's disapproval of Mr. Battle as its legal adviser. The inference will take place to-day. Mr. Battle is reported to be as anxious to e relieved of his duties as the Grand Jury is to have him out. He is said to feel that the jury's attitude is insulting to his personal and professional standing.

A motion for an investigation of the benartment of Markets was made in the oard of Aldermen yesterday by As-Heans. Mr. Quinn declared that then the department was organized the Dr. Day at its head W. W. Smith nd E. J. O'Malley were put on either of the Commissioner to look out the interests of "Murphy & Co." "Hylan, Whalen, Sinnott and Hirshclous conduct on the part of these men, said Mr. Quinn, "the Mayor did not seem interested." He charged that O'Malley had been appointed to succeed Dr. Day without any investigation of the charges made against him by his charges made against him by his ecessor. The motion was defeated. Corporation Counsel Burr appealed to fustice Weeks and to the Grand Jury, or a relaxation of the subpones which selled for all correspondence in rela-tion to the markets scandal in the offices of the Mayor, Corporation Counsel, Com-missioner of Charities, Commissioner of ints and Comptroller. He said i ill the data were supplied it would tie p public business. Small bundles of day by the Comptroller, Commis-Coler and Commissioner Hirsch-

SUGGESTS 13 CENT SUGAR.

Food Administrator Williams Be-Heves Shortage Is Ending.

Thirteen cents a pound for sugar retail has been suggested by Arthur Williams, Food Administrator, as an appropriate price to protect wholesalers and dealers during the period following the temporary relief from the chortage through the arrival in the Eastern markets of several large consignments from the West, Costa Rica and Cuba.

He believes the backbone of the short-

age to be broken, but that due to circumstances the Government fixed price cannot be operative. About 4,000 tons of crude sugar will be in the refineries by to-day, and this should be released for he consumer before the end of the week. Mr. Williams said a careful investigation had convinced him that the shortage was not due to hoarding by big refiners and wholesalers as was charged in Washing-ton by a United States Senator a short

IS DEAD IN CANADA GRAND JURY QUEST Sir John Temple, After Disappearing, Joined Police.

> Special Desputch to Tan Bus. PRINCE ALBERT, Sank., Dec. 9.—Sir John Grenville Louis Temple, who left London suddenly in 1892, dropping completely out of sight for several years, and who was sought long and fruitlessly by members of his family as 'the miss-ing' baronet,' died here to-day from pneumonia. He had during his volun of the Northwest Mounted Police, and although his identity became known a few years ago he never had explained the cause of his sudden renunciation of

his title. He was 63 years of age. The disappearance of Sir John Templ provided London with a favorite sub-ject for gossip. "Burke's Peerage" ap-peared in 1911 with the history of the off, the Reemployment Committee of Temple family stricken out. When shortly after it became known that King Edward in a royal warrant had created lowes Morgan, president of the Meran office in the Home Department for chants' Association, is chairman, is en-the official recording of the order of deavoring to place all former soldiers, baronets and had forbidden all persons sailors and marines in permanent posi-whose name did not appear on this of-tions. There brought to an end before Jan. 1. appeared to be a break in the family Following is a list of the men in the line in 1786, when Sir Richard Temple, the seventh baronet, died without issue. The title was assumed by George Tem-ple, a native of Boston, then British Consul-General to New York, but it was discovered that his right to the title was at least questionable. At least two other male heirs, descendants of the Rev. Thomas Temple, third son of the first

baronet, were alive.

During his voluntary retirement to Canada Sir John said nothing to expials the mystery and the exact reason for his flight probably never will be known. He came to be regarded as one of the most efficient members of the Northwest Mounted Police.

Law Is Knocked Out, WASHINGTON, Dec. 9 .- A tax of half a million dollars on a pint of whiskey will be asked by Congress, the International Reform Bureau's executive committee decided here to-day, in the event the Supreme Court declares the wartime prohibition amendment constitutional.

The House Agriculture Committee deferred indefinitely to-day further con-mideration of various resolutions pro-posing repeal of the wartime prohibition act, after hearing Representative Rainey (Ill.), who declared \$500,000,000 in direct taxes would be paid to the Government next month if the act were

FORDNEY BILL IS PASSED.

House Acts to Stem Flood of Forelgn Goods.

Washington, Dec. 9.—Without a record vote, the House to-day passed the Fordney hill designed to prevent foreign manufacturers from flooding American markets with products sold at a lower price in the United States than in the untry of manufacture.

The measure would authorize the Secretary of the Treasury to send agents to inspect the books and plants of manufacturers of exports to the United States and to study prices of such merchan-dise abroad. Should the producers refuse to submit to such inspection their products would be excluded from the United States.
